

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

RICHARD MAYNE.

METROPOLITAN POLICE OFFICE,

Great Scotland Yard, January 1, 1861.

NOTICE.

The following Tables of Fares and Distances have been drawn up for the information of the public, in pursuance of the Act 16 & 17 Vict., c. 33, sec. 5 & 6. By section 6 of that Act, in case of dispute as to the fare, these Tables are conclusive evidence of all the distances therein stated.

The measurements in each column are from the place at the head of the column: (these places are the seven principal Railway Departure Stations, the Steam Packet Wharf, London Bridge, and 112 Hackney Carriage Standings.)

٧,

The places to which the measurements are made (275 in each column) have been selected from all parts of the metropolis, with the view of giving some well-known points in every neighbourhood. The distances and fares to those places being accurately known, the fares may be also ascertained to and from various other places in the neighbourhood.

The number of fares calculated is 33,000, making a total to and from all the places of 66,000; and as the distances are stated, the fares between many other places may be found by reference to the measurements in the Tables.

The distances have been measured by the shortest routes, accessible for Hackney Carriages i by day and night; and when the river is crossed, the bridge in the most direct line is taken, although it may be a toll-bridge. There is not room to give the name of the bridge in these Tables, as has been done in the Tables put up at each Hackney Carriage Standing.

The north-west corner, or the angle towards the north-west of the Squares is the point to which the distances have been measured for the Squares.

No place beyond the circumference of a circle of four miles radius from Charing Cross, is inserted in these Tables, as the fare to every such place, by 16 and 17 Vict., cap. 127, sec. 13, is determined by the place where the carriage shall be discharged, whether beyond, or within that circle; and the arrangement of these Tables does not admit of fares being stated in such cases.

Great pains have been taken to make these Tables accurate. The selection and measurement of such a multitude of streets, to obtain the distances between the several places, the repetition of the measurements by different hands in order to ensure the utmost accuracy, and the numerous calculations of fares involved an amount of complicated operations, and the arrangement of a mass of details that have called for the devotion of very considerable time and labour.

THE opening of the Thoroughfare to Hackney Carriages across Saint James's Park from Marlborough House, Pall Mall, to Buckingham Gate, Pimlico, having rendered it necessary to revise the distances measured by my authority which regulate the Fares to be demanded by the Drivers of Hackney Carriages; the Three Parts of the Book of Fares for Hackney Carriages heretofore published by my authority, and respectively dated December 1st, 1853, May 1st, 1854, and September 1st, 1854, are hereby cancelled. In preparing this revised Book of Fares, the distances have been measured by the new roads and leading thoroughfares which have been opened to the public since the above dates, and all Tables of Fares placed at Hackney Carriage Standings which have been affected by the changes, have been corrected and reprinted by my authority, and dated January 1st, 1857.
